

PODCON

A niche interior fit out, building refurbishment and modular construction company

has now achieved OFSC accreditation

PODCON has achieved OFSC accreditation in November 2022. They are a full-service construction company operating in all east coast states, who work across most sectors to deliver bespoke solutions for their client base.

HSEQ Pty Ltd provide consultancy services from June to October 2022 (30 working days in total over a 16 week period). We initially conducted a gap audit on their existing SMS to identify any areas of improvements. Then we developed an action plan, with a number of metrics and timelines to ensure both PODCON and HSEQ Pty Ltd kept on track in achieving this OFSC accreditation journey. The PODCON Senior Leadership and Project Management Teams on site, stepped up and displayed positive leadership values in the changes to their SMS processes “they were always ON THE FRONT FOOT all the time, asking questions, seeking clarification, and suggesting changes to help them implement the updated SMS”.

The OFSC Federal Safety Officer “Auditor” conducted 1 desktop remote review and 1 site audit to finalise the accreditation of PODCON.

HSEQ Pty Ltd and PODCON found the OFSC desktop remote audit review process helped greatly with understanding and meeting the interpretation of the OFSC audit criteria. Which in turn lead to this great result.

Well Done the PODCON Team – A result deserved by all

HSEQ Pty Ltd is a niche specialist Work Health and Safety consultancy with expertise across diverse industries, ranging from construction, fabrication services and manufacturing, mining, utilities, and government organisations. We are an Australian-owned and operated private company, whose primary focus is to help our clients create and maintain safe and healthy working environments for their workers and contractors. Our strengths lie in working with clients to build strong relationships and practical ways to manage their WHS compliance and assurance obligations.

HSEQ Pty Ltd have over 30 years of work health and safety consulting experience, (with 17 years in Office of the Federal Safety Commissioner (OFSC) construction auditing requirements). We have a proven track record of successfully delivering tailored services that work and meet our client’s OFSC needs.

Remember even small companies can achieved OFSC accreditation it is about the senior leadership team putting their skin in the game – In PODCON case their commitment made all the difference.
